Welded Pipe

Welded steel pipe is manufactured by flat steel plate, with welding seam on the pipe body. Including ERW pipe, LSAW pipe, SSAW pipe.

It has the advantages of simple production process, high production efficiency, low cost, and fast development speed.

SIZE	SPEC	OD	T	Weight

	#40	88.90	5.49	11.300

Seamless Pipe

Seamless steel pipe is manufactured by the round steel billet, through hot rolling, cold rolling or cold drawn processes, no seam on the pipe body.

It can improve the ability to withstand the pressure, has greater strength under load with uniformity of shape.
